Company

# LOCKHEED MARTIN

#### **Company Description**

Lockheed Martin, an advanced technology company, was formed in March 1995 with the merger of two of the world's premier technology companies, Lockheed Corporation and Martin Marietta Corporation. Headquartered in Bethesda, MD, Lockheed Martin is principally engaged in the research, design, development, manufacture, and integration of advanced technology systems, products, services, and a full range of specialized capabilities to meet the individual needs of our US Navy customers.

Lockheed Martin is principally engaged in the research, design, development, manufacture, and integration of advanced technology systems, products, and services. As a lead systems integrator and information technology company, nearly 80% of LM's business is with the DoD and other Government agencies. In fact, Lockheed Martin is the Navy's largest single provider of ships, aircraft, systems, technologies, and services as well as the largest provider of IT services, systems integration, and training to the US Government. LM is also a leading provider of modeling, simulation, and mission rehearsal tools for military and civilian applications, focusing on live, virtual, constructive training and is the preeminent supplier of training solutions encompassing military and commercial plat-forms as well as staff training functions.
