Company

InDyne

Company Description

InDyne is a highly respected, high-technology firm specializing in end-to-end solutions across the life cycle of large, complex government contracts. These contracts provide management and execution services for space and test range operations, information technology (IT), base operations and maintenance, engineering, laboratory/test operations, communications services, and integrated security systems. InDyne provides critical program management, technical, multimedia, and software development services to a growing list of satisfied customers that includes the United States Air Force, National Aeronautics and Space Administration, United States Army, other federal agencies, and private industry.

Our employees' are innovative and collaborative and have the understanding and level of experience necessary to perform in highly dynamic operational environments. Our personnel also deploy globally to support operations, installations, and maintenance. Safety is a priority in every endeavor. We are dedicated to proactively work with our customers to ensure our programs meet and exceed their requirements, standards, and expectations. InDyne supports the methodologies and certifications required by our wide-ranging list of customers. We understand the uniqueness of each so we ensure our personnel are either hired or obtain the requisite training and certifications to maximize the value for the customer and our partners.
